Description

Our meticulous attention to detail results in a Museum Quality Restoration on a late 1930's/early 1940's National 9 Selection Candy Machine.

Finished with PPG products using base/clear "Mint Green" and "Colonial White" accents create a stunning Original look!

Every part has been dis-assembled, painted, powder-coated, or zinc plated either in clear (sliver) or yellow (gold)!

Coin Mechanism has been completely broken down, re-zinc plated, re-assembled and tested for proper functionality.

Approx. dimensions: 67" tall, 28" wide, 13" deep; and approx weight: 175 lbs.

Questions, concerns or additional photos, please contact us! Shipping is available in the lower 48 States.
